<b>Preface</b>	v	Basic functions of a scientific calculator	28
<b>About the author</b>	vii	Rounding and estimating	29
<b>Unit R Review of basic mathematics</b>	1	<b>Unit 1 Summary</b>	30
Topic A: Basic math skills	2	Unit 1 Self-test	32
Numbers and place value	2	<b>Unit 2 Introduction to algebra</b>	34
Prime / composite numbers	3	Topic A: Algebraic expressions	35
Prime factorization	4	Basic algebraic terms	35
Basic mathematical symbols and terms	5	Evaluating algebraic expressions	36
Topic B: Percent, decimal and fraction	6	Topic B: Translating words into algebraic expressions	37
Fractions	6	Key words in word problems	37
More about fractions	7	Translating phrases into algebraic expressions	38
Decimals	8	Writing algebraic expressions	39
Operations with decimals	9	Steps for solving word problems	40
Percent and conversion	10	<b>Topic C: Exponents &amp; order of operations</b>	42
Topic C: Operations with fractions	11	Introduction to exponents	42
Least common denominator (LCD)	11	Read and write exponential expressions	43
Operations with fractions	12	Order of operations	44
Ratio and proportion	13	<b>Unit 2 Summary</b>	45
Unit R Summary	14	Unit 2 Self-test	47
Unit R Self-test	18	<b>Unit 3 Introduction to geometry</b>	49
<b>Unit 1 Basic statistics and calculator use</b>	20	Topic A: Perimeter, area, and volume	50
Topic A: Average	21	Perimeter of plane figures	50
Mean and range	21	Circle	51
Median and mode	22	Perimeter	52
Topic B: Graphs	23	Perimeters of irregular / composite shapes	54
Bar or column graph	23	Topic B: Area	55
Line graph	24	Areas of quadrilaterals and circles	55
Circle or pie graph	25	Areas of irregular / composite shapes	56
Create a circle graph	26	Topic C: Volume	57
Topic C: Using a calculator and estimating	27		
Scientific calculator	27		

Volume of solids	57	Adding and subtracting signed numbers	90
Topic D: Surface and lateral area	59	Multiplying signed numbers	91
Surface and lateral area – rectangular solids	59	Dividing signed numbers	92
Surface and lateral area – cylinders, cones and Spheres	60	Unit 5 Summary	93
Unit 3 Summary	62	Unit 5 Self-test	95
Unit 3 Self-test	64	Unit 6 Polynomials	98
Unit 4 Measurement	68	Topic A: Introduction to polynomials	99
Topic A: Metric system of measurement	69	Polynomials	99
International system of units	69	Degree of a polynomial	100
Metric conversion	70	Combine like terms	101
The unit factor method	71	Removing parentheses	102
Topic B: Metric units for area and volume	72	Topic C: Multiplying and dividing polynomials	103
Convert units of area and volume	72	Multiply and dividing monomials	103
The relationship between mL, g and $\text{cm}^3$	73	Multiplying / dividing polynomials by monomials	104
Topic C: Imperial system	74	FOIL method to multiply binomials	105
The system of imperial units	74	Unit 6 Summary	106
Imperial unit conversion	75	Unit 6 Self-test	108
Topic D: Converting between metric & imperial units	76	Unit 7 Equations	110
Imperial and metric conversion	76	Topic A: Properties of equations	111
Unit 4 Summary	78	Introduction to equations	111
Unit 4 Self-test	80	Solving one-step equations	112
Unit 5 The real number system	82	Properties of equality	114
Topic A: Rational and irrational numbers	83	Topic B: Solving equations	115
Real numbers	83	Solving multi-step equations	115
Topic B: Properties of addition and multiplication	84	Equation solving strategy	116
Properties of addition	84	Equations involving decimals / fractions	117
Properties of multiplication	85	Topic C: One solution, no solutions, infinite solutions	118
Properties of addition and multiplication	87	Types of equations	118
Topic C: Signed numbers and absolute value	88	Topic D: Writing and solving equations	120
Signed numbers	88	Number problems	120
Absolute value	89	Consecutive integers	122
Topic D: Operations with signed numbers	90	Mixed problems	123
		Unit 7 Summary	125

Unit 7 Self-test	127	Sides and angles	161
<b>Unit 8 Formulas</b>	130	Trigonometric functions	162
Topic A: Substitution into formulas	131	Sine, cosine, and tangent	163
Geometry formulas	131	Topic C: Solving right triangles	164
Substituting into formulas	132	Trigonometry using a calculator	164
Topic B: Solving formulas	134	Solving triangles	165
Solving for a specific variable	134	Angles of depression and elevation	167
More examples for solving formulas	135	Applications of trigonometry	168
Topic C: Pythagorean theorem	136	Unit 10 Summary	169
Pythagorean theorem	136	Unit 10 Self-test	171
Applications of the Pythagorean theorem	137	<b>Unit 11 Exponents, roots and scientific notation</b>	174
Unit 8 Summary	138	Topic A: Exponents	175
Unit 8 Self-test	140	Basic exponent properties review	175
<b>Unit 9 Ratio, proportion, and percent</b>	142	Degree of a polynomial	176
Topic A: Ratio and rate	143	Topic B: Properties of exponents	177
Ratio	143	Properties of exponents	177
Rate	144	Properties of exponents – examples	179
Topic B: Proportion	145	Simplifying exponential expressions	180
Solving proportion	145	Topic C: Scientific notation and square roots	
Topic C: Percent	147	Scientific notation	181
Percent review	147	Square roots	182
Solving percent problems	148	Simplifying square roots	183
Topic D: Similar triangles	149	Unit 11 Summary	184
Similar triangles	149	Unit 11 Self-test	186
Solving similar triangles	150	<b>Unit 12 Solving word problems</b>	188
Unit 9 Summary	151	Topic A: Value mixture problems	189
Unit 9 Self-test	154	Solving value mixture problems	189
<b>Unit 10 Trigonometry</b>	156	Topic B: Concentration mixture problems	191
Topic A: Angles and triangles	157	Solving mixture problems	191
Angles	157	Topic C: Motion & business problems	193
Triangles	159	Distance, speed and time problems	193
Find the missing measurement	160	Business problems	194
Topic B: Trigonometric functions	161	Topic D: Mixed problems	196

Solving mixed problems	196	Topic A: Cartesian graphing	232
Unit 12 Summary	198	The coordinate plane	232
Unit 12 Self-test	200	Graphing linear equations	233
<b>Unit 13 More about polynomials</b>	202	Topic B: The slope of a straight line	234
Topic A: Adding and subtracting polynomials	203	Slope	234
Polynomials review	203	Vertical and horizontal lines	235
Adding and subtracting polynomials	204	Topic C: Graphing a linear equation	236
Topic B: Multiplication of polynomials	205	Slope-intercept equation of a line	236
Multiplying polynomials	205	Graphing using the slope and the $y$ – intercept	237
Special binomial products	206	Graphing linear equations – Intercept method	238
Topic C: Polynomial division	207	Topic D: Writing equations of lines	239
Dividing polynomials	207	Finding an equation of a line	239
Long division of polynomials	208	Unit 15 Summary	240
Missing terms in long division	209	Unit 15 Self-test	242
Unit 13 Summary	210	<b>Answers for self-tests</b>	244
Unit 13 Self-test	212	<b>Index</b>	262
<b>Unit 14 Factoring polynomials</b>	214		
Topic A: Factoring	215		
Highest / greatest common factor	215		
Factoring polynomials by grouping	216		
Factoring difference of squares	217		
Topic B: Factoring trinomials	218		
Factoring $x^2 + b x + c$	218		
Factoring $ax^2 + b x + c$	219		
More on factoring $ax^2 + b x + c$	220		
Factoring trinomials: AC method	221		
Factoring special products	222		
Topic C: Application of factoring	223		
Quadratic equations	223		
Solving quadratic equations	224		
Application of quadratic equations	225		
Unit 14 Summary	227		
Unit 14 Self-test	229		
<b>Unit 15 Graphing linear equations</b>	231
